

Faculty Position

The Koch Institute for Integrative Cancer Research at the Massachusetts Institute of Technology (<http://ki.mit.edu>) invites applications for a junior or senior faculty appointment. Appointments are expected to be in the MIT Department of Biology, but other departments will be considered if appropriate. The Koch Institute is an NCI-designated Cancer Center, which features research across a wide range of areas in basic cancer research and cancer-oriented engineering. This is an open search with regard to field of study and specific research focus, and research programs focused on basic science questions are potentially appropriate, but some cancer relevance will be a consideration. The candidate(s) will be expected to develop and lead an internationally competitive research program as well as participate in undergraduate and graduate teaching. The successful candidate(s) will have laboratory space in the Koch Institute.

Applicants should include curriculum vitae, brief summaries of past accomplishments and a description of future research plans. Letters of recommendation should be sent separately from three individuals able to evaluate the candidate's accomplishments and future potential for both research and teaching.

Please apply online at <https://academicjobsonline.org/ajo/jobs/9566>.
Complete applications are due by **November 1, 2017**.

MIT is an affirmative action employer, and we encourage applications from women and underrepresented minorities.
